Secretary
Inter-Departmental Radio Advisory Committee
Room 7353
New Post Office Building
Washington, D. C.

Dear Sir:

The Central Intelligence Agency is required to employ extensive systems of radio communications in the course of its operations and, as a consequence, has a continued requirement for the assignment of radio frequencies.

Due to its close association with the military services, it has been possible to procure frequencies occasionally needed on a loan basis. In some instances a liaison established with members of IADC has been satisfactory in the obtaining of special allocations.

The current international situation makes it desirable at this time to request that this Agency be granted official membership on the Inter-Departmental Radio Advisory Committee to provide information of Committee proceedings and insure adequate frequency allocations.

It will be greatly appreciated if you will authorize us to designate appropriate members of my staff as members of your Committee.

Sincerely,

Signed

R. H. Miller-Smetter
